

SMART Meeting Pro software

With touch-enabled whiteboarding features, superior digital ink capability and flexible options for saving your work, SMART Meeting Pro software makes it easy to share content and capture ideas in powerful, engaging ways.

Automatic setup for Bridgit

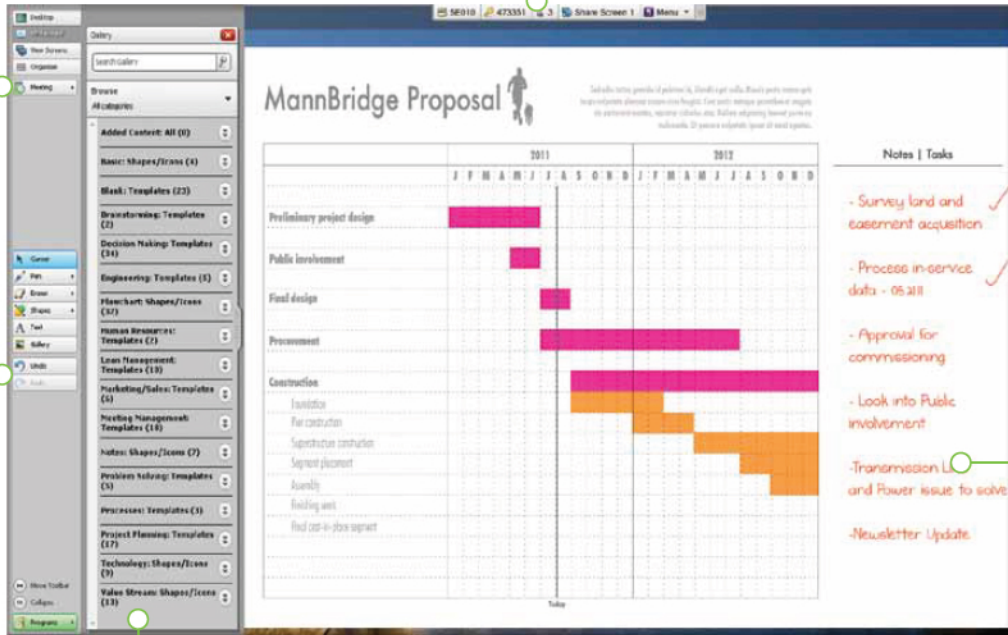

Share screens instantly with remote participants, manage data conferencing features and connect all invited meeting rooms automatically when you have Bridgit conferencing software.

Meeting productivity tools

Access meeting resources and attendee details, monitor meeting time, extend room bookings and quickly start and end meetings through integration with Microsoft Exchange.

Simple interface

Toggle between your desktop and your whiteboard, access meeting management features, select content options and enable pen features with the easy-to-use toolbar.

Business content gallery

Access ready-made templates from an available gallery of images and tools – you can use existing content or create your own and save for reuse.

SMART GoWire™ auto-launch cable

Guests or occasional users can use SMART Meeting Pro software without installing it on their laptops.

SMART Ink™

Write in digital ink over any application, document or webpage, save your work in a variety of ways and share it immediately.

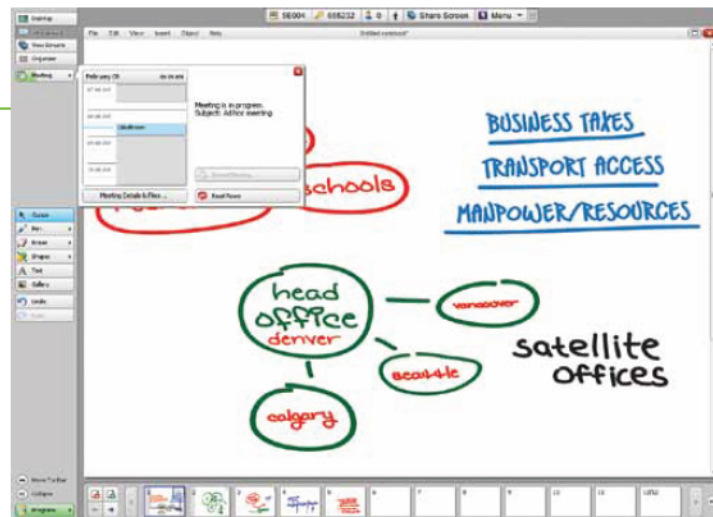

Key features

Interactive whiteboarding features

Use unlimited interactive whiteboard pages and easily jump from page to page. Use shapes, lines, text, undo and redo, resize, rotate and change object properties and convert handwriting to text.

Email notes

Quickly distribute all notes and action items by emailing them to the team at the end of the meeting.

Save function

Take screen shots or area captures of third-party content to include in your interactive whiteboard file. Save all of your work to a single file as a PPT, PDF or image file on your network, computer hard drive or USB drive.

Multiple-display capabilities

Enables multiple-display control and content management. Move notes and documents between screens and write on different displays simultaneously.

Organise notes

Provides a view of all note pages, which can be sorted by dragging, inserting or deleting pages. Easily reorganise without having to rewrite.

Integration with Microsoft Exchange

Access attachments, attendee information and meeting details sent in the meeting request and email meeting outcomes to all attendees at the end of the meeting. Feature requires Microsoft Exchange server.

For single- or dual-display systems

- Windows XP SP3 or Windows 7
- 2.0 GHz dual core processor or faster (quad-core recommended)
- 1 GB of RAM for Windows XP, 2 GB of RAM for Windows 7 (4 GB recommended)
- 1 GB of free hard disk space for minimum installation (additional free space required during installation)
- DirectX® 9 capable video card with discrete 256 MB VRAM
- At least 10 Mbps wired network or 802.11 a/g/n (100 Mbps wired network or 802.11 n wireless network recommended)

For multiple-display systems

- Windows XP SP3 or Windows 7
- 3.0 GHz dual core processor or faster (quad-core recommended)
- 4 GB of RAM or more
- 1 GB of free hard disk space for minimum installation (additional free space required during installation)
- DirectX 9 capable video card with discrete 256 MB VRAM
- At least 10 Mbps wired network or 802.11 a/g/n (100 Mbps wired network or 802.11 n wireless network recommended)
