Why work with Hamilton Rentals?

Designed with flexibility in mind, our Resource as a Service gives you a choice of service delivery models and options. Plus, you can opt for engagement timelines that won't hold you down - from six months to a year or more:

Resource Augumentation - Certified and security cleared IT professionals - engineers, architects, admins, project directors and programme managers – who work on-site under your direction on a time and materials (T&M basis).

Managed Resource Service - We provide a fully scoped and resourced service with options to include team leadership and cover. All personnel work under your direction on a T&M or fixed-fee basis.

Outcome Based Project Services - We take full responsibility for the delivery of a project programme or package of work within a fixed price commercial model. Giving you maximum predictability of both cost and outcomes.

Portfolio Delivery Model - We take care of delivering a defined Change Capability within your IT organisation, working either in a fully outsourced capacity or in conjunction with your internal teams or a third party partnership organisation.

With Hamilton Rentals you can opt to stay in control of delivery and outcomes or let us take full responsibility for delivery and resource management. Our people can work onsite, off-site, and anywhere in between and are experienced in a range of specialisations - everything from automation to the cloud, network security, data and analytics, as well as end-user and IT Service Management.
